The accompanying consolidated financial statements, expressed in Vietnamese Dong ("VND"), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System issued under Circular No. 99/2025/TT-BTC dated 27 October 2025 (superseding Circular No. 200/2014/TT-BTC) by Ministry of Finance and guidance on preparation and presentation of consolidated financial statements under Circular No. 202/2014/TT-BTC dated 22 December 2014 by Ministry of Finance, and prevailing accounting regulations in Vietnam.

The accompanying consolidated financial statements are not intended to present the consolidated financial position, consolidated results of operations and consolidated cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

2.2. Forms of accounting records

The form of accounting records applied in the Group is the General Journal.

2.3. Financial year

The Group's financial year is from 01 January to 31 December.

2.4. Reporting and functional currency

The Group maintains its accounting records in VND.

SONADEZI CHAU DUC SHAREHOLDING COMPANY AND ITS SUBSIDIARIES

Address: 9th Floor, Sonadezi Building, No. 1, Street 1, Bien Hoa 1 Industrial Park,
Tran Bien Ward, Dong Nai Province, Vietnam

NOTES TO CONSOLIDATED THE FINANCIAL STATEMENTS (CONTINUED)

2.1. Basis of consolidation

The consolidated financial statements are the financial statements of a group in which the assets, liabilities, equity, income, expenses and cash flows of the parent and subsidiaries are presented as those of a single economic entity regardless of the legal structure of the entities. The financial statements of the subsidiaries have been prepared for the same financial year using uniform accounting policies to those used by the parent company. Adjustments were made for any different accounting policies to ensure consistency between the subsidiaries and the parent company.

A subsidiary is fully consolidated from the acquisition date on which the Group obtains control over the subsidiary until the date on which the parent ceases to control the subsidiary, unless control is intended to be temporary because the subsidiary is acquired and held exclusively with the intention of selling or disposing of it within twelve months.

Intra-group transactions elimination

All intra-group transactions, balances, income, and expenses - including unrealised intra-group profits or losses - are eliminated in full on consolidation. Unrealised losses resulting from intra-group transactions that are deducted in arriving at the carrying amount of assets are also eliminated unless the cost cannot be recovered.

3. ACCOUNTING POLICIES

3.1. Use of estimates

The preparation of the consolidated financial statements requires management to make estimates and assumptions that impact the carrying value of certain assets and liabilities, contingent assets and liabilities reported in the notes at 31 March 2026 as well as revenues and expenses in the consolidated financial statements for the financial year ended 31 March 2026. Although these estimates are based on management's best knowledge of all relevant information available at the date when the consolidated financial statements are prepared, this does not prevent actual figures differing from estimates.

3.2. Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, cash at bank and current investments for a period not exceeding 3 months or highly liquid investments which are readily convertible to known amounts of cash, and which are subject to an insignificant risk of changes in value.

Cash equivalents are defined as the same as those under Accounting Standard No. 24 - Statement of cash flows.

3.3. Financial investments

Held to maturity investments

Held to maturity investments comprise term deposits.

Equity investments in other entities

Other investments

Investments classified as other investments are investments other than investments in subsidiaries, investments in associates or investments on joint ventures.

Other investments are accounted for under the cost method which comprise purchase prices plus (+) acquisition related costs (if any). In case of investments of non-monetary assets, the cost of investments is recognised at the fair values of the assets as incurred.

NOTES TO CONSOLIDATED THE FINANCIAL STATEMENTS (CONTINUED)

Recognition principles of provision for other investment impairment loss

As of the date of the consolidated financial statements, provisions for impairment losses on equity investments are recognised if an indication of impairment exists.

Provisions for impairment losses on equity investments in other entities are determined using fair values if the fair values can measure reliably. If the fair values cannot be measure reliably at the reporting date, provisions are measured on the basis of the investee's losses.

3.4. Account receivables

Recognition method

Receivables are classified into trade receivables, and other receivables based on the following rules: Trade receivables represent those arising from purchase and sale related transactions of goods, services or assets and the seller is independent of the buyer; the remaining receivables are classified as other receivables.

Provisions for doubtful debts

As of the date of the consolidated financial statements, provisions for doubtful debts are recognised for past-due accounts receivable and for accounts receivable where circumstances indicate that they might be uncollectible or for uncollectible debts due to liquidation, bankruptcy, or similar difficulties.

The difference between the required balance and the existing balance of provisions for doubtful debts is recorded as a general and administrative expense in the income statement.

3.5. Inventories

Inventory measurement

Urban real estate properties constructed for sale during the normal course of the Group's operations, not for lease or capital appreciation, are recognized as inventory at the lower of cost to bring each product to its present location and condition, and net realizable value.

The cost of real estate properties constructed for sale includes compensation costs, site clearance costs, road construction and drainage system costs, landscaping and other infrastructure costs, construction costs paid to contractors, design consultancy fees, and other related expenses.

Net realizable value is determined as the estimated selling price less the estimated costs of completion along with marketing, selling, and distribution expenses.

Method of accounting for inventories

Inventories are measured using the weighted average method and are recorded under the perpetual inventory method.

Provisions for decline in value of inventories

As of the date of the consolidated financial statements, provisions are recognised for obsolete, slow-moving, defective inventory, and for inventory stated at cost higher than net realisable value.

The difference between the required balance and the existing balance of the provisions for a decline in value of inventories is included in cost of sales in the income statement.

NOTES TO CONSOLIDATED THE FINANCIAL STATEMENTS (CONTINUED)

3.6. Tangible fixed assets

Tangible fixed assets are measured at cost less accumulated depreciation.

Tangible fixed asset recognition

The cost of purchased tangible fixed assets comprises the purchase price and any directly attributable costs of bringing the assets to their present location and working condition for their intended use.

The costs of tangible fixed assets constructed by contractors are the finalised costs of the construction, other directly related expenses and the registration fee (if any).

The costs of self-made and self-constructed tangible fixed assets comprise the construction costs, actually incurred manufacturing costs plus installation and test run costs.

Tangible fixed asset after initial recognition

The costs incurred after the initial recognition of tangible fixed assets shall be recorded as increase in their historical cost if these costs are certain to improve future economic benefits obtained from the use of these assets. Those incurred costs which fail to meet this requirement must be recognized as production and business expenses in the period.

Depreciation

The costs of fixed assets are depreciated on a straight-line method over their estimated useful lives.

The estimated useful lives are as follows:

▪ Buildings, structures	05 - 30 years
▪ Machinery and equipment	07 - 15 years
▪ Motor vehicles	07 - 10 years
▪ Management equipment and devices	05 - 08 years
▪ Other	03 - 30 years

For the cost of road BOT 768 are depreciated in accordance with Circular No. 147/2016/TT- BTC dated 13 October 2016 issued by Ministry of Finance as follows: "the time of depreciation of fixed assets shall be determined by the payback period. The depreciation of fixed assets formulated from the projects shall be in proportion to the annual revenues and in accordance with the time of operation serving the payback (similar to the method of depreciation by quantity and/or weight of the products)." The formula is as follows:

- $\text{Depreciation} = (\text{Costs of the BOT} / \text{Total revenue estimated to recover the costs of the project}) * \text{revenue per year}$.

3.7. Operating leases

Assets subject to operating leases are recognised in the statement of financial position according to the Group's asset classification pattern.

Initial direct costs to generate income from operating leases are recognised as expenses in the year as incurred or amortised over the lease term. Lease income from operating leases is recognised in the income statement on a straight-line basis over the lease term regardless of payment methods.

Depreciation of assets subject to operating leases is consistent with the depreciation policy of the lessor applicable to similar assets.

NOTES TO CONSOLIDATED THE FINANCIAL STATEMENTS (CONTINUED)

3.8. Investment property

Investment properties are measured at cost less accumulated depreciation. Investment properties held for capital appreciation are not depreciated but subject to impairment review.

Investment property recognition

An investment property is measured initially at its cost. The cost of an investment property is the amount of cash or cash equivalents paid, or the fair value of other considerations given to acquire an asset at the time of its acquisition or construction. The costs include initial transaction charges.

Investment property after initial recognition

Costs related to investment properties incurred after initial recognition shall be expensed in the period, unless it is certain that such costs will enhance the future economic benefits of the investment property beyond the originally assessed level of performance. In such cases, the costs shall be capitalized as an addition to the property's historical cost.

Investment property depreciation

The cost of an investment property is depreciated on a straight-line.

The estimated useful lives of investment properties are as follows:

▪ Buildings, structures	07 - 41 years
▪ Land use rights	41 years
▪ Factory	20 - 41 years

3.9. Construction in progress

Properties in the course of construction for production, rental, administrative purposes, or for purposes not yet determined, are carried at cost. Cost includes professional fees and borrowing costs dealt with in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

These expenses are temporarily measured as the original cost when the assets are put into use if the cost has yet to be approved.

Under the current regulations on investment and construction management, subject to management decentralisation, construction finalisation value shall be approved by competent agencies. The final construction finalisation value could be different from the aforementioned original cost subject to the finalisation approved by competent agencies.

3.10. Business cooperation contract (BCC)

Capital contribution recognition in jointly controlled operations

The capital contributor recognizes assets contributed to BCC's operations as other receivables; The capital contribution party recognizes assets of the parties contributing to BCC's activities as other liabilities.

Sharing of revenues, expenses

The parties agree to divide the business results based on the actual capital contribution related to the house construction. Which party contributes money to implement which cost item in the total cost estimate of the house construction, and other valid costs will be included in that party's capital contribution value. At that time, the capital contribution value changes, and the percentage changes. When finalizing the cooperation contract, the parties agree to divide the business cooperation results according to this percentage change.

NOTES TO CONSOLIDATED THE FINANCIAL STATEMENTS (CONTINUED)

3.11. Prepayments

Prepayments are classified as current and non-current based on their original term. Prepayments mainly comprise rental cost of premises with technical infrastructure, compensation costs for site clearance, cost of tools and supplies, etc., which are amortised over the period for which they are paid or the period in which economic benefits are generated in relation to these expenses.

3.12. Liabilities

Liabilities are classified into trade payables and other payables based on the following rules: Trade payables represent those arising from purchase and sale related transactions of goods, services or assets and the seller is independent of the buyer; the remaining payables are classified as other payables.

Liabilities are also classified according to the maturity date, the remaining term from the date of the financial statements, original currency, and each creditor.

Liabilities are recognised at no less than the payment obligation.

3.13. Borrowing costs

Capitalisation of borrowing costs

Borrowing costs directly attributable to the acquisition, construction, or production of qualifying assets, that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets until the assets are put into use or sale.

Investment income earned on temporary investment of borrowings is deducted from the cost of the respective assets.

All other borrowing costs are recognised as an expense in the income statement when incurred.

3.14. Accrued expenses

Accrued expenses include:

- Accrued expenses for goods and services received from the seller during the reporting period but not yet paid due to lack of invoices or accounting documents. These expenses are recognised as operating expenses of the reporting year.
- Accrued expenses for industrial park land lease provided to customers but not yet completed in the investment phase, which are estimated according to the regulations of the government regarding the cost estimates in the construction industry.

3.15. Unearned revenues

Unearned revenues include advanced payments from customers for one or more accounting periods for industrial park land lease and golf service business.

Unearned revenues are periodically determined and transferred into revenues in according with the lease term and service use.

NOTES TO CONSOLIDATED THE FINANCIAL STATEMENTS (CONTINUED)

3.16. Owners' equity

The owners' contributed equity

The owners' contributed equity is recognised when contributed.

Share premiums

Share premiums are recognised as the difference between the issue price and the par value of shares, and the difference between the re-purchase price and the re-issue price of treasury shares.

Dividends

Dividends are recognised as a liability at the date of declaring dividends.

Reserves

Reserves are created at certain percentages of profit after tax as prescribed in the Group's charter.

Retained earnings

Net profit after income tax can be distributed to shareholders after the distribution is approved the General Annual Meeting of Shareholders and reserves are created in accordance with the Group's Charter and legal regulations in Vietnam.

3.17. Revenue and other income

Revenue from selling goods

Revenue from selling goods is measured at the fair value of the consideration received or receivable. In most cases, revenue is recognised when transferring the risks and rewards of ownership to the buyer.

Revenue involving the rendering of services

Revenue of a transaction involving the rendering of services is recognised when the outcome of this transaction can be estimated reliably. When a transaction involving the rendering of services is attributable to several periods, each period's revenue is recognised by reference to the stage of completion at the end of the reporting period.

Revenue from transferring real estate

Revenue from the transferring real estate is recognised when all five (05) of the following conditions are satisfied:

- The Group has transferred risks and benefits associated with ownership of the real estate to the buyers;
- The Group no longer holds the right to manage the real estate as real estate's owners or the right to control the real estate;
- The turnover is determined reliably;
- The Group has received or will receive economic benefits from the sales of the real estate;
- Costs related to sales of the real estate may be determined.

NOTES TO CONSOLIDATED THE FINANCIAL STATEMENTS (CONTINUED)

Revenue from leasing land and infrastructure business

Revenue from leasing land and infrastructure business is recognized for each lease contract and advance lease payments received are deferred and systematically allocated over the contractual lease term in accordance with Circular No. 99/2025/TT-BTC dated 27 October 2025 of the Ministry of Finance guiding the Enterprise Accounting Regime.

Interest income

Interest income is recognised on an accrual basis by reference to the principal outstanding and at the interest rate applicable.

3.18. Cost of sales

Cost of sales and services provided represents total costs of goods, services which are sold and rendered in the period in accordance with the matching principle.

The cost of land and infrastructure leased includes all costs directly incurred for land development activities or costs that can be allocated on a reasonable basis to these activities, including:

- All land and land development costs;
- All construction and construction-related costs;
- Other mandatory and general costs incurred during the formation of real estate related to the current and future land and infrastructure development activities of the project, such as common technical infrastructure, mandatory land fund for public purposes.

3.19. Finance expense

Finance expenses represent all expenses incurred in the reporting year which mainly include interest expenses and payment discounts.

3.20. General and administrative expense

General and administrative expenses represent common expenses, which include payroll costs for office employees; stationery expense, depreciation expense of fixed assets used for administration activities; taxes, fees, charges; provision expense for doubtful debts; utility service and sundry expense.

SONADEZI CHAU DUC SHAREHOLDING COMPANY AND ITS SUBSIDIARIES

Address: 9th Floor, Sonadezi Building, No. 1, Street 1, Bien Hoa 1 Industrial Park,
Tran Bien Ward, Dong Nai Province, Vietnam

NOTES TO CONSOLIDATED THE FINANCIAL STATEMENTS (CONTINUED)**3.21. Taxation*****Corporate income tax******Current corporate income tax expense***

Current corporate income tax expense is determined on the basis of taxable income and the rate of corporate income tax (CIT) of the current year at 20%.

Deferred corporate income tax expense

Deferred corporate income tax expense is determined on the basis of the deductible temporary differences, taxable temporary differences and the estimated CIT rate that will be applied for the years that assets and liabilities will be recovered. The tax rates used will be the tax rates (and tax laws) that are in effect at the financial year end.

Value added tax

The goods sold and services rendered by the Group are subject to value added tax at the following rates:

▪ Infrastructure fees for processing enterprises	0%
▪ Supplying clean water	5%
▪ Other activities	10%

In accordance with Decree No. 180/2024/ND-CP dated 31 December 2024 and Decree No. 174/2025/ND-CP dated 30 June 2025 by the Government, the VAT rate of 8% is applicable to certain goods and services from 01 January 2025 to 31 December 2026.

Other taxese

Other taxes are applicable in accordance with the prevailing tax laws in Vietnam.

The tax reports of the companies in the Group will be inspected by the Tax Department. Application of the laws and regulations on tax to different transactions can be interpreted by many ways; therefore, the tax amounts presented in the consolidated financial statements can be amended in accordance with the Tax Department's final assessment for the companies.

3.22. Earnings per share

Basic earnings per share are calculated by dividing the net profit attributable to ordinary shareholders (after adjusted for bonus and welfare funds), by the weighted average number of ordinary shares outstanding during the period, excluding ordinary shares bought back by the Group and held as treasury shares.

3.23. Diluted earnings per share

Diluted earnings per share are calculated by dividing the net profit attributable to ordinary shareholders (after adjusted for bonus and welfare funds), by the weighted average number of ordinary shares outstanding during the period and total ordinary shares that would be issued on the conversion, excluding ordinary shares bought back by the Group and held as treasury shares.

Total	<u>531,110,858,655</u>	<u>290,633,670,716</u>

The risk of failing to fulfil agreements related to industrial park land leases and golf services under the contracts signed with customers was assessed as low, based on the following conditions:

- For industrial park land leases: The contract has been in place for many years. The customers are unlikely to abandon building facilities, and the full payment for land rental has already been made.
- For golf services: Customers are not entitled to refund under any circumstances.

Dong Nai, 20th April, 2026

No.: 017/2026/SZC-TCKT

V/v Explanation of the fluctuations in
profit after corporate income tax

To: - THE STATE SECURITIES COMMISSION;
- HO CHI MINH CITY STOCK EXCHANGE

1. Listed organization : Sonadezi Chau Duc Shareholding Company
2. Trading name : SZC
3. Listed stock code : SZC
4. Content:
 - 4.1. Explanation of the fluctuations in profit after corporate income tax

Sonadezi Chau Duc Shareholding Company would like to explain the fluctuations in profit after corporate income tax on the Quarterly I/2026 consolidated financial statements as follows:

- **Consolidated financial statements**

Expressed in Dong

No.	Items	Quarterly I/2026	Quarterly I/2025	Rate
1	Revenue	104,036,099,993	421,955,026,560	Decrease 75.3%
2	Expense	82,794,596,107	265,262,243,462	Decrease 68.8%
3	Profit after corporate income tax	17,146,483,294	126,348,769,958	Decrease 86.4%

Reason: The Company's profit after corporate income tax for the Quarterly I/2026 decreased by 86.4% compared to the same period of the previous year, mainly due to the following factors:

- Revenue from selling goods and rendering of service recorded a significant decrease of VND 312,286,385,040, equivalent to a 75.4% decline year-on-year compared to Quarterly I/2025.

Reason: During the period of awaiting official guidance from competent state authorities regarding revenue recognition for industrial park infrastructure business activities in accordance with Circular No. 99/2025, the Company temporarily applied the allocation of unearned revenue from industrial park infrastructure operations. Consequently, revenue recognized in the period decreased significantly compared to the revenue recognition method applied in the same period of the previous year.

- Variations in expenses:

In line with the decrease in revenue, the cost of services rendered decreased accordingly, representing a 70.3% decline year-on-year. Financial income decreased by 69.2%, while financial expenses decreased by 17.4% compared to the same period of 2025. Selling expenses decreased by 97.3%, and general and administrative expenses decreased by 51.5% compared to the corresponding period of the previous year.

As a result of the above-mentioned changes in revenue and expenses, the Company's profit after corporate income tax for the first quarter of 2026 decreased by 86.4% compared to the same period of the previous year.

Sonadezi Chau Duc Shareholding Company respectfully presents to the State Securities Commission, Ho Chi Minh City Stock Exchange and Shareholders for information.

Sincerely!

Cc:

- As above;
- Document: VT, TCKT.

Nguyen Van Tuan
